

THE RELIABLE PART

PRODUCT GUIDE

at DDS Acessórios Automóveis, LDA

Quality - No Problem!

Only Matching Quality parts with dimensions and accessories according to OE parts.

Claim rates close to zero.

Only approved suppliers with documented quality management systems according to TS 16949 and ISO 9000.

Produced and approved according to recognized international and national standards such as ECE R90 and NAMI.

The aftermarket's most extensive warranty program:

- General 5-year guarantee against defects in material and workmanship*.
- Extra wear guarantee on brake pads: Min. 35.000 km.

Only brand in Europe offering this excellent price/quality ratio compared to traditional premium aftermarket brands.

Standard oiled discs

Coated discs

High Carbon discs

Bi-metallic discs

Discs with ABS and bearing

Drums

// Brake Discs & Drums

NK has one of the market's widest ranges of brake discs and drums. We cover more than 95% of the European market.

NK brake discs are manufactured by approved suppliers in OE matching quality and complies with the requirements of ECE R90.

Brake Parts

NK's wide range of mechanical and hydraulic brake parts makes it easy to fulfill all kinds of brake repairs.

- | | | |
|------------------------|-------------------------|-------------------------|
| // Brake Pads | // ABS Sensors | // Master Cylinders |
| // Brake Discs & Drums | // ABS Sensor Rings | // Brake Hoses |
| // Brake Shoes | // Brake Calipers | // Wheel Cylinders |
| // Cables | // Electric Parking | // Mounting Accessories |
| // Wear Indicators | // Brake Calipers | // Brake Fluids |
| // Splash Panels | // Caliper Repair Parts | // Brake Cleaner |

// Brake Pads

High quality brake pads are important due to both safety and comfort. With NK's unique 35.000 km wear warranty and noise reduction technology we set the standard.

- 35.000 km warranty
- Manufactured with high standards
- Matching OE quality
- ECE **R90** Approved
- Unique 3-layer noise reducing shim technology

// Brake Calipers

Replacement with a new caliper or repair of an existing caliper is always possible with NK parts. A wide range of calipers for passenger cars and light commercial vehicles endures a very high car park coverage.

With NK's unique brake caliper concept we offer you one of the automotive markets largest "NO SURCHARGE" concepts.

NK's caliper range includes various caliper types in both steel and alloy versions:

- Fixed or floating caliper design
- Caliper with guide pin design
- Caliper with electronic parking brake
- Matching OE quality
- 5 years guarantee against manufacturing and material defects

// Brake Shoes

- // Standard shoes
- // Handbrake shoes
- // Premounted kits

NK Brake shoes fits for passenger cars and light commercial vans and are equipped according to OE. The lining is approved according to ECE **R90**.

Premounted kits includes all necessary parts for a standard drum brake repair.

Clutch Parts

In modern cars the clutch repair has become an expensive experience for many car owners. For NK it is important to have a wide range of clutch parts at affordable prices.

- | | |
|----------------------------|-------------------------------|
| // Clutch Cables | // Dual Mass Conversion Kits |
| // Clutch Kits | // Concentric Slave Cylinders |
| // Clutch Master Cylinders | // Clutch Hydraulics |

Suspension Parts

Shock absorbers and coil springs are important parts for a comfortable driving experience. NK suspension parts are manufactured with the aim of ensuring both high comfort and high safety.

- | | |
|--------------------|------------------------|
| // Shock Absorbers | // Top Strut Mountings |
| // Coil Springs | // Dust Cover Kits |
| // Air Suspension | |

// Shock Absorbers

- | | |
|--------------------------------|----------------|
| // Oil pressure shock absorber | // Bellow sets |
| // Gas pressure shock absorber | // Repair kits |

Shock Absorbers are a main part of the car's suspension system; the link between wheel and chassis.

The NK shock absorber range comprises oil and gas controlled shock absorbers which meet the highest aftermarket standards in terms of dimension compatibility to OE, material quality and corrosion protection.

- Matching OE quality
- Endurance test: 4 million times in 14 days
- Salt spray test: 120 hours
- Coating: electrostatic spraying and oil paint
- Sealing: NOK oil seal
- IATF 16949 approved
- Manufactured according to the highest quality assurance standards

Steering parts

Steering parts are crucial safety parts. Continuous strain, wear and corrosion can gradually lead to severe damages such as slackness and breakage and can cause serious accidents. NK steering parts are matching quality parts made according to OE standards and dimensions.

- | | | |
|-----------------------|------------------------|----------------|
| // Track Control Arms | // Tie Rod Axle Joints | // Stabilizers |
| // Bushes | // Tie Rod Ends | // Bellow Sets |
| // Ball Joints | // Tie Rods Complete | // Repair Kits |

Transmission Parts

NK Transmission parts ensure efficient and reliable power transmission focused on functionality, quality and durability. NK parts are matching quality according to OE with dimensions that ensures problem free fitting.

- // Complete Drive Shafts
- // CV Joint
- // CV Joint Boot Kits
- // Cables

// Drive Shafts

NK offers complete drive shafts in high aftermarket quality. All parts are manufactured according to IATF16949 - the most comprehensive quality standard of the automotive industry.

NK drive shafts offer OE-matching quality and dimensional accuracy, ensuring optimal performance and easy installation – even for newer, more complex drivetrains. The range is continuously updated to meet the shifting demands of the market, including hybrid and electric applications.

A strong, modern brand at your disposal

For decades, NK has been a well-known and respected trademark for brakes, steering, clutches and other automotive wear and tear parts.

They offer a unique, elegant brand profile. The essence of the NK brand is expressed in the pay-off THE RELIABLE PART.

NK is a brand name owned and registered by Borg Automotive A/S.

NK has been on the market for more than **50 years** and today is bought by distributors all across Europe as well as neighbouring regions.
